FOR IMMEDIATE RELEASE

White House Café offers Sweets for the Soul

Yakima Washington – May 18, 2009

There's something about cupcakes that brings out the child in all of us and Sherry Jefferson of the White House Café knows why.

“Each one is unique. It's yours and yours alone,” says Jefferson. “You can eat it anyway you like.”

Whether you start at the bottom and save the topping for last or go for it frosting first, it's a sweet for the soul.

Try lemon swirl, fresh strawberry, chocolate cookie or vanilla bean. Treat yourself to one after lunch at the White House or stop by and pick one up, boxed in ribbons and bows. Planning a shower, birthday party or other special event? Treat everyone to a White House cupcake, beautifully decorated for the occasion.

Call ahead for special decorations and orders of more than a dozen. Visit our website for more mouth-watering photographs and additional information.
